Welcome Message

Dear Industry Partners,

We are delighted to have you join us for the 28th ESCRS Winter Meeting, which will take place from February 15-18, 2024, in Frankfurt, Germany. This year it is our great pleasure to bring the 2024 Winter Meeting to you in collaboration with the German Society for Cataract & Refractive Surgery (DGII).

The ESCRS Winter Meeting is always a unique opportunity for ophthalmologists, researchers, and industry representatives to exchange ideas and insights on the latest advances and challenges in cataract and refractive surgery, whilst being the ideal forum to network and forge new connections.

Following last year's successful Winter Meeting in Vilamoura, this year will again be 100% face-to-face.

The programme will feature an Immersive learning track on Corneal Refractive Surgery and another one on Intraocular Refractive Surgery, a selection of Symposia and Free Paper sessions, Instructional Courses and, of course, the Young Ophthalmologists Programme and new networking features as a novelty. Wetlabs will once again be available!

The joint participation with the DGII will translate into joint Free Paper Sessions and a Live Surgery Session amongst others.

As industry partners, you play a vital role in the success of the ESCRS Winter Meeting. Your support and collaboration enable us to provide high-quality education and research to our members and attendees.

We value your contribution, and we look forward to working with you to make this congress a memorable and rewarding experience for all.

We are looking forward to seeing you in Frankfurt in 2024!

Kind regards,

Sponsorship Opportunities

UEMS have decided to tighten their rules with regards to how delegates can be exposed to industry.

According to UEMS, the traditional delegate journey should be free from any exposure to company branding and promotion.

As a result of that, all on-site sponsorship items will have to be located within the exhibition area, as delegates will be free to choose by themselves to visit the Winter Meeting exhibit. The digital opportunities have been adapted accordingly.
